**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Foley # 31,354 on 7/24/07. The application has been amended as follows:

**Claim 73:**

A computer readable medium having a computer program stored on a computer, thereon the computer program for providing transparent proxy services to a user of a client device, the client device having a browser for retrieving digital content from a data network, wherein the client device, the proxy server and a remote server are connected to the data network, the remote server having a remote server host name, the computer program, when executed causing:  
receiving a first request from the browser for a first unit of digital content, wherein there is a remote server hostname associated with the remote server and the first request includes the remote server hostname for referencing the first unit of digital content;  
requesting the first unit of digital content from the remote server;  
receiving the first unit of digital content from the remote server;  
parsing the first unit of digital content for references to the remote server;  
identifying a first reference within a software construct, wherein the software construct, when performed, would force a page reload by the browser;  
inserting a first software function into the modified remote page for modifying references;  
instructions for inserting a call to the first software function into the software construct, wherein the first reference is encapsulated in the function call;  
modifying at least one reference to the remote server in the first unit of digital content to form a modified first unit of digital content by inserting a surrogate server hostname into the at least one reference and removing a remote server hostname from the at least one reference, wherein the surrogate server hostname is different from the remote server hostname; and  
transmitting the modified first unit of digital content to the browser.
